

RAGCHEW SHACK LIVE — EI9GMB

Where operators come to ragchew.

Live site for GitHub Pages.

Features

- Mini Rig Bar with real frequencies: 20m 14.270, 40m 7.185, Night Owls 3.750, DX Lounge 14.195
- 4 RagChew Rooms (20m free, rest premium)
- No fake calls / no fake stations — only real operators
- PTT with Spacebar

Access Codes

- Click the **RagChew HamShack** logo to enter code.

Admin (owner only):

- Code: `james` → ADMIN • EI9GMB badge, full unlock

Premium (give to paying customers after Stripe):

- Code: `claddagh25` → unlocks all rooms, saved in browser

Payments

Stripe Checkout: <https://buy.stripe.com/00w5kDfSSfuh0BL6rR2Fa04>

Price: €20 / \$20 lifetime

Set your Stripe Success URL to:

`https://YOUR_USERNAME.github.io/ragchew-shack/?premium=unlocked`

or

`https://YOUR_DOMAIN.com/?premium=unlocked`

The app auto-detects `?premium=unlocked` or `?success` and unlocks premium.

Stripe Flow:

1. User clicks Upgrade Now → opens Stripe
2. Pays €20
3. Stripe redirects to success URL + shows email with code `c laddagh25`
4. User clicks RagChew logo, enters `c laddagh25` , all rooms unlock

Deploy to GitHub Pages

1. Create new repo: ragchew-shack
2. Upload index.html to root
3. Go to Settings → Pages → Source: Deploy from branch, Branch: main, Folder: / (root)
4. Save — your site will be live at https://YOUR_USERNAME.github.io/ragchew-shack/

For Admin

You always have full access via `james` . Keep it secret.

EI9GMB - Anthony
